# RENEWABLE ENERGY & ENERGY EFFICIENCY BUSINESS LOAN

New England business owners have long sought new and innovative ways to lower energy costs while also making thoughtful choices about energy efficiency. The New Hampshire Business Resource Center and Ocean National understand that small businesses in our community need the latest tools to save money and improve the environment. That's why we created a special business loan for just this purpose.

Ocean's **Renewable Energy and Energy Efficiency Business Loan** is designed to help you lower energy costs with a reduced interest rate loan. Use the loan for structural and equipment improvements, which will reduce your energy consumption, therefore saving your business money and helping to conserve energy. Here are the details of the program.

- ◆ Program is targeted for loan amounts of \$10,000 or more.
- ◆ Interest rate is Prime minus 1% floating.
- ◆ Term and amortization based on energy efficiency payback (maximum 7 years).
- ◆ No up-front, out of pocket costs—subject to energy efficiency review findings, assignment of energy rebate at 20% of total project costs, and loan package.
- ◆ Use energy cost savings to help repay loan.

Loan amount can be used for various renewable energy and energy efficiency projects such as:

- ◆ Energy Efficient Lighting Systems
- ◆ Variable Frequency Drives
- ◆ Premium Efficient Motors
- ◆ Energy Efficient HVAC Systems and Chillers
- ◆ Air Compressors
- ◆ Energy Efficient Dry Type Transformers
- ◆ Custom Energy Efficiency Measures
- ◆ Renewable Energy Systems

Making your business more energy efficient reduces your costs and helps cut down on the use of nonrenewable energy sources. And at a reduced interest rate. Now that's a *win-win situation* for businesses and the environment.

To find out more about the Renewable Energy and Energy Efficiency Business Loan and how to apply, or to arrange for an energy efficiency review, contact the New Hampshire Business Resource Center at 603-271-2591 or visit them online at [nbeconomy.com](http://nbeconomy.com).

Subject to credit approval.
